

Easy access off asphalt highway.
Young fruit orchard in front yard.

Looking east across the pastures, from the brick house window.

Big metal barn with horse stalls, adjoined by metal pens/working corrals, and a stout, 60' round pen.

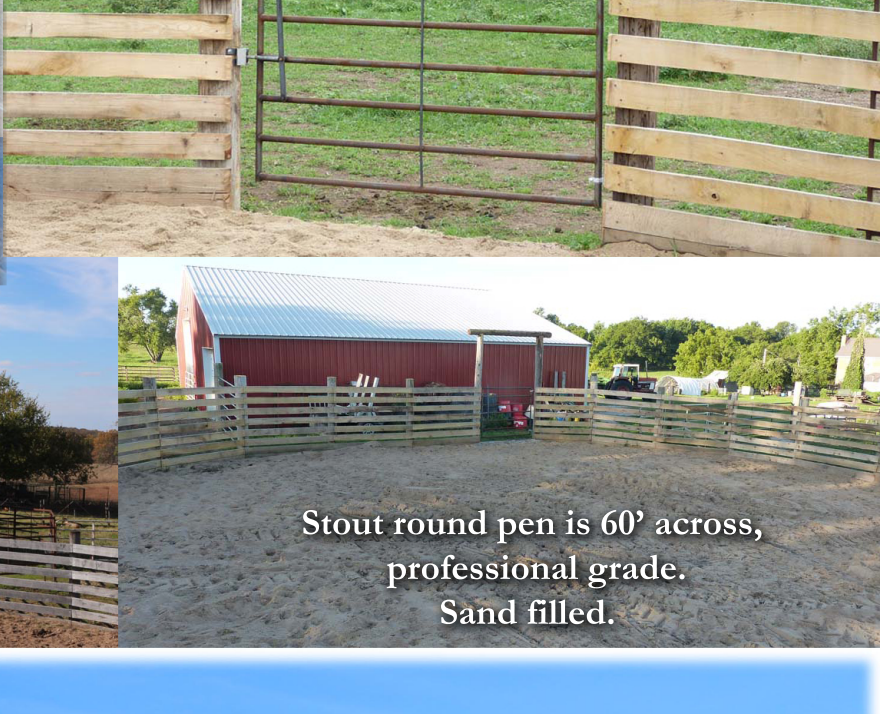

Strong growth of clover, regularly limed and properly fertilized with natural Kelp Fertilizer from Maine. We make a fine, nutritious hay... up to 3 cuttings a year.

Metal pens put in recently, for smooth livestock handling... Horse safe and cattle strong!

Secure round pen "slam gate" latches with long levers, are easy to work from horseback

Stout round pen is 60' across, professional grade. Sand filled.

Massive, custom cover all type arch building for Hay/machine storage. Has withstood severe wind storms, proven.

Multiple cuttings of hay yearly, utilizing natural rainfall.

View of north pasture. Cleanly maintained, with some woods for max winter protection.

View from south pasture, of house and outbuilding, heritage apple tree, and south garden area.

South pasture along approach to headquarters.

Brand new build; 16' now; 20x40 Shop w/ Appt above; between two 40x8'x9'6" tall containers, for storage.

Additional "buggy shelter" runs the length. Upper story has great views of the farm on all sides around.

Young orchard growing near brick house...

Larger of 2 securely fenced garden plots...

Large heritage apple tree; pruned & cared for it should live a long time!

Concord grapes on both fences. Established strawberry patch... & more.
